

Easy payment plan

As collectors at heart, we understand that collecting F1 models can be expensive (but also an extremely rewarding) business.

Increasingly limited number runs of new releases (some are only 80 pieces) mean that the avid collector has to commit to purchasing a model several months in advance and it's guaranteed that the three models you've pre-ordered all come into stock in the same month!

Therefore, to enable our customers to pre-order models and spread the cost (over several months) we have introduced our 'easy payment' plan; meaning you need never miss out on that crucial model for your collection again!

If you are interested in this service and have already placed a pre-order, please contact us. Similarly, if you are looking to place a pre-order and would like to make use of this service just drop us an email, give us a call or add a note to your electronic payment. We will then contact you to create a payment plan that suits you!

We also offer a similar service for stock items. Again, we agree a payment plan and goods are 'set-aside' and dispatched once the final payment is received.

Basically, the process is as follows:

You email us at support@mrf1nutmodels.com (or give us a call) with a list of the models you would like to order, how much you would like to pay in each instalment and how often you would like to make a payment. If you are not sure on payment amounts and frequency, we can keep these ad-hoc (so you just pay us when you have the spare cash!).

We create a 'statement' for your account based on the models you are looking to order and each time you make a payment we send you an update. When sufficient funds have been paid to cover one or more models ordered (and they are in stock), we will contact you to arrange dispatch.

You can add or remove items to the list at any time, we do not charge interest for providing this facility and if you pre-ordering items using this service they will be reserved for you on release!

If you have any questions or would like any further information, please do not hesitate to contact us.
